

**HARASHINA et al**  
**Serial No. Unknown**

**REMARKS**

This divisional application and the newly presented claims therein are focussed to the subject matter comprising a polyacetal resin, a glyoxyldiureide compound, and a basic nitrogen-containing compound and/or an antioxidant (particularly, the combination of the metal-free glyoxyldiureide compound and the basic nitrogen-containing compound), since the parent application claims the composition comprising a glyoxyldiureide metal salt and a basic nitrogen-containing compound in a specific ratio.

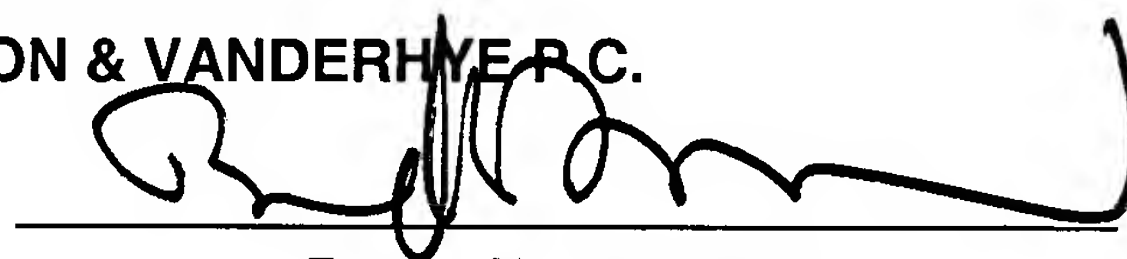

The specification has been amended to insert wording therein to conform with original claim 10.

Entry of the amendments herein presented is requested and an action based on the merits thereof is awaited.

Respectfully submitted,

**NIXON & VANDERHIVE P.C.**
